Call Transfer Feature

UT670 has 2 types of Call Transfer Feature, A) and B).

A) Transfer

B) Blind Transfer

Call Transfer

	Call Transfer Feature	Description	Reference in Operating Instructions
A	Transfer	Transferring after the Destination Answers	<ol style="list-style-type: none"> 1. During a call, tap [Transfer] on the [Current] tab. 2. Call the party to whom you want to transfer the call. 3. When the destination party answers, tap [Transfer Complete]. <p><u>Note</u></p> <ul style="list-style-type: none"> • In step 1, instead of tapping [Transfer], you can tap a flexible button assigned as a BLF button to call the transfer destination. • If On-hook Transfer is enabled at your unit, you can simply go on-hook in step 3 instead of tapping [Transfer Complete]. For details, consult your administrator or dealer. • In step 3, instead of tapping [Transfer Complete], you can tap [Swap] to put the transfer destination on hold and talk to the party you are transferring. Tapping [Swap] again returns you to the transfer destination. • If the transfer destination does not answer, either tapping [Transfer Cancel] or tapping the DN flexible button for the call on hold (flashing green slowly) returns you to the original call. • In step 3, the call will still be transferred even if you go on-hook before the transfer destination answers.

Call Transfer

	Call Transfer Feature	Description	Reference in Operating Instructions
B	Blind transfer	Transferring without Waiting for a Response from the Destination	<ol style="list-style-type: none">1. During a call, tap [Blind Transfer] on the [Current] tab2. Enter the transfer destination's phone number, and then press. 3. Go on-hook. <p><u>Note</u></p> <ul style="list-style-type: none">▪ In step 2, tapping [Transfer Cancel] before pressing  returns you to the original call
