How to download and install the device driver (STI driver) for the Panasonic document scanner

Target model	Target OS
KV-S2028C KV-S2048C	Windows® XP 32bit / 64bit Edition Windows Vista® 32bit / 64bit Edition Windows® 7 32bit / 64bit Edition Windows® 8 32bit / 64bit Edition Windows Server® 2003 32bit / 64bit Edition Windows Server® 2008 32bit / 64bit Edition Windows Server® 2012 64bit Edition

Note

● Make sure to log in as an administrator while installing.

■ How to download and install the driver

1 Download the file (`panascan***.exe`) into an appropriate folder in your computer. ("`***`" part of the filename stands for version number)

> After the installation has been completed, you may remove the downloaded file.

2 Turn off the power of the scanner, if it is connected to your computer.

3 Run the downloaded file (`panascan***.exe`) using explorer (Depending on the configuration of your computer, "`.exe`" part of the filename may not be displayed)

> (For Windows XP user)
> Please run it after uninstall the device driver in advance if you update it from version 5.6 or earlier to version 6.0 or later. (*1)

4 Follow the instructions on the screen.

> Even if the screen 'Windows can't verify the publisher of this driver software' appears, continue installation.

5 Connect the scanner and turn on the power. (For SCSI connection, restart your computer.)

6 Follow the instructions of the hardware wizard to complete the installation.

> Even if the screen 'Digital Signature was not found for this driver' or 'has not passed Windows Logo testing···' appears, continue installation.
