	This symbol is used to alert operators to a specific operating procedure that must be performed carefully.
	These symbols are used to alert operators to a specific operating procedure that must not be performed.
	These symbols are used to alert operators to a specific operating procedure that must be emphasized in order to operate the unit safely.

For Users

 **WARNING**

Power and Ground Connection

- 

The power source voltage of this unit is listed on the nameplate. Only plug the unit into an AC outlet with the proper voltage. If you use a cord with an unspecified current rating, the unit or plug may emit smoke or become hot to the touch.
- 

When you operate this product, the power outlet should be near the product and easily accessible.
- 

To ensure safe operation, the power cord supplied must be inserted into a standard three-prong AC outlet which is effectively grounded (earthed) through the normal wiring.
- 

The fact that the equipment operates satisfactorily does not imply that the power point is grounded (earthed) and that the installation is completely safe. For your safety, if in any doubt about the effective grounding (earthing) of the power point, consult a qualified electrician.
- 

If the plug cannot be inserted into the AC outlet, contact a licensed electrician to replace the AC outlet with a properly grounded (earthed) one.
- 

Do not defeat the grounding (earthing) plug (ex. do not use a conversion plug).
- 

Plug the power cord firmly into an AC outlet. Otherwise, it can cause fire or electric shock.

Before You Start

Do not pull, bend, rest objects on, or chafe the power cord, and plug. Damage to the power cord or plug can cause fire or electric shock.

Do not attempt to repair the power cord, or plug. If the power cord or plug is damaged or frayed, contact an authorized service representative for a replacement.

Ensure that the plug connection is free of dust. In a damp environment, a contaminated connector can draw a significant amount of current that can generate heat, and eventually cause fire if left unattended over an extended period of time.

Never touch the plug with wet hands. Danger of electric shock exists.

Stop operation immediately if the unit emits smoke, excessive heat, abnormal smell, or unusual noise. These conditions can cause fire or electric shock. Immediately turn the unit off, and unplug the power cord, and contact your dealer for service.

When disconnecting the unit, grasp the plug instead of the cord. Pulling on a cord forcibly can damage it, and cause fire or electric shock.

Operating Safeguards

If metal fragments or water gets into the unit, turn the unit off, and unplug the unit immediately. Contact your dealer for service. Operating the contaminated unit can cause fire or electric shock.

Do not open covers, and do not attempt to repair the unit yourself. Contact your dealer for service.

Do not alter the unit or modify any parts. Alteration or modification can cause fire or electric shock.

During thunderstorms, do not touch the unit and plug. It may cause an electric shock.

Roller Cleaning Paper

Do not drink or inhale the roller cleaning paper fluid including isopropyl alcohol.

The roller cleaning paper may be harmful to sensitive skin. Please use protective gloves.

Do not use the roller cleaning paper near a heater or open flame.

CAUTION

Power

The unit should be used only with the power cord enclosed with the unit.

When the unit is not used over an extended period of time, switch it off, and unplug it. If an unused unit is left connected to a power source for a long period, degraded insulation may cause electric shock, current leakage, or fire.

Installation and Relocation

Do not position the unit in a location where it is unstable.

To prevent fire or shock hazard, do not expose this unit to rain or any type of moisture.

Do not place the unit in a hot humid or dusty environment. Prolonged exposure to these adverse conditions may cause fire or electric shock.

Do not block the air vents. Doing so can cause heat to build up, and may result in fire.

When moving the unit, be sure to unplug the power cord from the AC outlet. If the unit is moved with the power cord attached, it can cause damage to the cord which could result in fire or electric shock.

Move this unit with two persons, holding the four hollows on the front and rear sides. Dropping the unit can cause injury and damage to the unit.

Hollows

Do not place printed materials containing magnetic ink characters or magnetic strip cards on the flatbed.

Magnets are located in the flatbed cover (flatbed sheet) and may damage data stored on printed materials and cards.

Operating Safeguards

If the unit falls down or gets damaged, turn the unit off, and unplug the power cord. Otherwise, it may cause fire or electric shock.

Do not place any liquids or heavy items on the unit.

Accidental spillage of liquid into the unit may cause severe damage. If this occurs, turn the unit off, unplug the power cord, and contact your dealer for service.

Be careful not to pinch your fingers when closing the exit door. It can cause injury.

LED LIGHT DO NOT VIEW DIRECTLY WITH OPTICAL INSTRUMENTS. CLASS 1M LED PRODUCT

LED properties

LED radiation output:	12 mW max.
Wavelength:	Red 630 nm typ.
	Green 534 nm typ.
	Blue 460 nm typ.

Safety Information (For United Kingdom only)

This appliance is supplied with a moulded three pin mains plug for your safety and convenience. A 5 amp fuse is fitted in this plug. Should the fuse need to be replaced, please ensure that the replacement fuse has a rating of 5 amps and that it is approved by ASTA or BSI to BS1362. Check for the ASTA mark  or the BSI mark  on the body of the fuse. If the plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced. If you lose the fuse cover, the plug must not be used until a replacement cover is obtained. A replacement fuse cover can be purchased from your local Panasonic Dealer.

IF THE FITTED MOULDED PLUG IS UNSUITABLE FOR THE SOCKET OUTLET IN YOUR PREMISES, THEN THE FUSE SHOULD BE REMOVED AND THE PLUG CUT OFF AND DISPOSED OF SAFELY. THERE IS DANGER OF SEVERE ELECTRICAL SHOCK IF THE CUT-OFF PLUG IS INSERTED INTO ANY 13 AMP SOCKET.

If a new plug is to be fitted, please observe the wiring cord as shown below. If in any doubt, please consult a qualified electrician.

WARNING

THIS APPLIANCE MUST BE EARTHED.

IMPORTANT

The wires in this mains lead are coloured as follows:

Green-and-Yellow	: Earth
Blue	: Neutral
Brown	: Live

As the colours of the wires in the mains lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows.

The wire that is coloured GREEN-AND-YELLOW must be connected to the terminal in the plug that is marked with the letter E or by the Earth symbol  or coloured GREEN or GREEN-AND-YELLOW.

The wire that is coloured BLUE must be connected to the terminal in the plug that is marked with the letter N or coloured BLACK.

The wire that is coloured BROWN must be connected to the terminal in the plug which is marked with the letter L or coloured RED.

How to replace the fuse:

Open the fuse compartment with a screwdriver and replace the fuse and fuse cover.

Precautions

Installation

- Do not place the unit in direct sunlight, in a cold draft, or near heating apparatus.
- Do not place the unit near apparatus which generate electronic or magnetic noise.
- Protect the unit from static electricity.
- Do not move the unit immediately from a cold place to a warm place. It may cause dew.

CD-ROM

- Do not write or stick paper on the front and/or back of CD-ROM.
- Do not touch the data side of the CD-ROM. When handling the CD-ROM, be careful not to leave fingerprints or otherwise damage the CD-ROM.
- Do not leave the CD-ROM where it is directly exposed to sunlight or near a heater for extended periods.
- Do not throw or bend the CD-ROM.

Roller Cleaning Paper

- Keep the roller cleaning paper out of reach of small children.
- Do not store the roller cleaning paper in direct sunlight or in a place with a temperature over 40 °C (104 °F).
- Only use the roller cleaning paper to clean the rollers and ADF glasses.
- For details about the roller cleaning paper, please refer to the Material Safety Data Sheet (MSDS). Please ask your Panasonic sales company about obtaining the Material Safety Data Sheet.

KEEP AWAY FROM FIRE.

Others

- Make sure to remove paper clips and staples from documents before scanning. Failing to do so can damage the unit, document, or both.
- Do not use thinner, benzine, or cleaners containing abrasives or surfactants, for cleaning the outside of scanner.
- Plug the power cord into an outlet from which you can easily unplug it.

Illegal Duplication

It is unlawful to make duplication of certain documents.

Duplicating certain documents may be illegal in your country/area.

Penalties of fines and/or imprisonment may be imposed on those found guilty. The following are examples of items that may be illegal to duplicate in your country/area.

- Currency
- Bank notes and checks
- Bank and government bonds, and securities
- Passports, licenses, official or private documents, identification cards, and the like
- Copyright materials, or trademarks without the consent of the owner
- Postage stamps, and other negotiable instruments

This list is not inclusive, and no liability is assumed for either its completeness or accuracy. In case of doubt, contact your legal counsel.

Notice

Install your machine near a supervised area to prevent illegal duplication from being made.

Caution Labels

CAUTION

Be careful not to pinch your fingers when closing the door. It can cause injury.

Installing the Unit

About the installation location

- In order to ensure proper operation, install the unit maintaining the proper distances from surrounding objects, as shown in the following illustration.

CAUTION

- Move this unit with two persons, holding the four hollows on the front and rear sides. Dropping the unit can cause injury and damage to the unit.

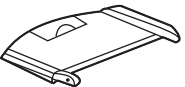

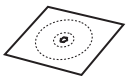

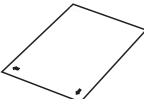

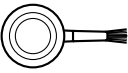

Notice

- Do not move the unit immediately from a cold place to a warm place. It may cause dew.

1. Check the accessories.

- Check that all accessories are included before installing the scanner. In the event that an item is missing, please contact your dealer.

² There is no TWAIN application on this CD-ROM.

³ RTIV (Reliable Throughput Imaging Viewer) is our original application software, and does not require either TWAIN driver or ISIS driver.

⁴ There are some restrictions for QuickScan Pro due to being a trial version. In addition, when using QuickScan Pro, the ISIS driver is required. QuickScan Pro does not work with the 64-bit version of Windows.

⁵ For details on how to use MCD, refer to PIE Reference Manual and RTIV Reference Manual.

⁶ PIE is an acronym for Panasonic Image Enhancement Technology.

⁷ The control sheets are stored as PDF files. For use them, print the control sheets in the same size as the document pages to be scanned. For details, refer to "Using Control Sheets" in the Operating Manual.

Software Installation

The software on the enclosed CD-ROM can be installed on your computer.

You can select from the 4 installation methods below, depending on your needs.

- a. **Complete:** Install all of the CD-ROM components.
- b. **All Drivers & Utilities:** Install all of the CD-ROM components except for applications.
- c. **Custom:** Install one of the drivers, utilities or manuals.
- d. **Application:** Select and install RTIV or the QuickScan Pro Demo.

Notice

- Make sure to log on as an administrator to install the software.

- 1. Set the power switch of the scanner to "○" (OFF).
- 2. Insert the included CD-ROM into the CD/DVD drive on your computer.
 - If you have a feature called "Autorun" activated, the installation process will start automatically.
 - The setup window will appear.

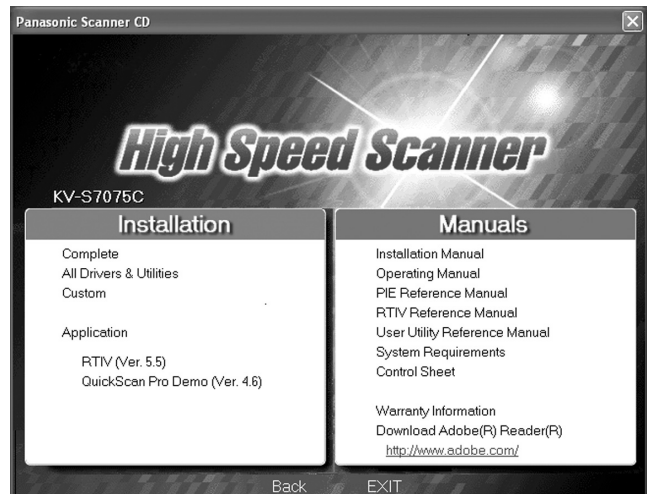

Note

- If the AutoPlay dialog box is displayed in Windows Vista, select "CDRun.exe".
- If the program does not start automatically, from [My Computer] ([Computer] in Windows Vista), select the CD/DVD drive, and then double-click "CDRun.exe".

- 3. Select your scanner model.

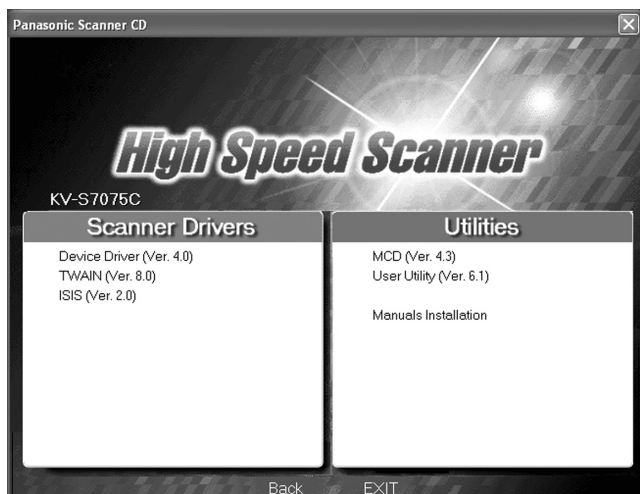

- 4. Select the desired installation methods from the "Installation" list on the left side of the screen.

- If you selected [Complete] or [All Drivers & Utilities], continue to step 6.
- If you selected [Custom], continue to step 5.
- If you selected [RTIV] or [QuickScan Pro Demo] in "Application", continue to step 6.

5. If you selected [Custom] for the installation type in step 4, select the item that you want to install.

6. Follow the instructions on the screen.
- In Windows Vista, if a window appears with the message "Windows can't verify the publisher of this driver software", continue with the installation by selecting "Install this driver software anyway".
7. Set the power switch of the scanner to "I" (ON).
- If you installed a device driver, it is necessary to continue with the next step.
8. Follow the instructions of the hardware wizard to complete the installation.
- The installation process is performed automatically in Windows Vista.

Note

Continue with the installation even if a window appears with the message "Digital Signature was not found for this driver" or "has not passed Windows Logo testing...".

Uninstalling Software

If you want to remove the software that is installed on your computer, follow the procedure below to uninstall them.

- In Control Panel, open [Add or Remove Programs].
 - In Windows 2000, select [Add/Remove Programs], and in Windows Vista, select [Uninstall a program].
- Select the item that you want to uninstall.
 - The software is displayed with the program names below:

Software	Program Name
Device driver	Panasonic High Speed Scanner Device Driver X.XX ^{*1}
TWAIN	KV-S7075C TWAIN Driver
ISIS	KV-S7075C KV-S7065C KV-S3065C ISIS Driver
RTIV	RTIV
QuickScan Pro Demo	QuickScan 4.6 ^{*1}
User Utility	Panasonic Scanner User Utility
MCD (Multi-color Dropout) Utility	MCD

^{*1} "X.XX" and the number that follows a program name are the software version. When you upgrade the software, the numbers above may be different from the actual software version.

- Follow the instructions on the screen.

Viewing Electronic Documentation

Viewing Manuals From the CD-ROM

All manuals on the CD-ROM can be viewed using Adobe Reader.

1. Insert the included CD-ROM into the CD/DVD drive on your computer.
 - If you have a feature called "Autorun" activated, the installation process will start automatically.
 - The setup window will appear.

Note

- If the AutoPlay dialog box is displayed in Windows Vista, select "CDRun.exe".

2. Select your scanner model.
3. Select a manual from the "Manuals" list on the right side of the screen.
 - The selected manual will open.

Note

- To view the electronic documentation, Adobe Reader must be installed on your computer. If your computer is connected to the Internet, you can download Adobe Reader by clicking the URL below "Download Adobe® Reader®". The URL is displayed in the "Manuals" list on the setup screen.

Viewing Manuals Installed On Your Computer

All manuals installed on your computer can be viewed as follows.

Note

- To install manuals on your computer, see page 14.
 - You can view the RTIV Reference Manual and the User Utility Reference Manual by clicking the help button on the software's operation screen.
1. On the [Start] menu, point to [All Programs], then [Panasonic], and select [Scanner Manuals].
 - If you are using Windows 2000, point to [Program] instead of [All Programs].
 2. Select the desired manual.
 - The selected manual will open.

Uninstalling Manuals

If you want to remove manuals that are installed on your computer, follow the procedure below to uninstall them.

1. In Control Panel, open [Add or Remove Programs].
 - In Windows 2000, select [Add/Remove Programs], and in Windows Vista, select [Uninstall a program].
2. Select "Panasonic Scanner Manuals".
3. Follow the instructions on the screen.

Troubleshooting

If a problem occurs while the unit is being used, check the following items and check the unit status with the User Utility. For other problems, refer to "Troubleshooting" in the Operating Manual.

If the unit still malfunctions, turn it OFF, unplug the power cord and call for service.

Symptom	Possible Cause	Remedy
The power indicator (LED) does not light when the power switch is turned ON.	The power cord is not plugged in.	Insert the power plug firmly.
	Problem with power supply.	Disconnect the unit from the electric outlet and call for service.
The computer does not recognize the unit. The scanner is not functioning correctly.	The unit is not connected to the computer correctly.	Connect the USB cable correctly.
	The software is not installed correctly.	Uninstall the software from the computer (page 15), and then install the software again (page 14).
	The USB interface of the computer is not installed correctly.	Check the computer whether the USB interface of your computer is installed correctly using the device manager's property.
	The unit is connected via USB hub.	Do not connect via USB hub.
	There is a problem with the USB cable.	Use the included USB cable or a certified Hi-speed USB 2.0 cable.
	The scanner entered Standby mode after not being used for a certain period of time.	Restart the scanner by pressing the Start/Stop button for more than 1 second so that the computer can recognize the scanner.

If you still experience problems after following these suggestions, please contact our Technical Support Department at 1-800-726-2797 for further assistance. (U.S.A. only)
